160,000 WEAVERS ARE LOCKED OUT

Cotton Mills of England May Remain Closed for Months—Strike of Spinners Real Reason for Action—Means Heavy Loss

(Western Associated Press)
MILTON, ENGLAND, Dec. 27.—Nothing was done last night to improve the situation belonging to members of the delegation of Master Cotton Spinners in North and North Eastern county of Lancashire, that the cotton mills will be closed, locked out and not re-opened until further notice.

Weavers to the number of 160,000 will be locked out and about equal number of spinners will be reduced to half time, with every prospect of complete stoppage of work if trouble should be prolonged.

The Federation of Master Cotton Spinners at a meeting this morning de-

cided it was impossible to continue turning out yarn while the looms were standing still. They will therefore stop production by stopping work three days in each week beginning January 1.

The hopes that a man named Riley and his associates, who are communists whose employment originated the strike in the Helens will end the strike on December 20, which led to the locking out of 160,000 weavers, have now come to a rupture between the employers and workers has been finally settled. The Rileys have resisted every inducement thrown out.

WESTERN FARMERS LOOKING TO CANADA

Large Number of Agriculturists from Central and Western States Will Come to Dominion Early in Spring—Prize-Winning Products Attract

(Western Associated Press)
MILWAUKEE, Dec. 27.—The magnificent showing of the Manitoba Agricultural college at the Chicago live stock show has stimulated interest in western Canada among the agricultural colonies of the central and western states. J. White, inspector of Canadian agricultural agencies in the United States, reported today from an eastern tour through the public, declares there has been an astonishing number of inquiries about the western frontier, and in addition, at these institutions, a large number contemplates moving to western Canada in the spring. Mr. White believes that no better class of settlers in the world could be obtained than these young men trained in the United States in the spring will be as good as ever.

EIGHTEEN HOMELESS POISON VICTIMS IN BERLIN SHELTER

Eat Decayed Food and Physicians Are Unable to Save Them—Scores More Are Seriously Ill—Victims Without Homes or Friends

(Western Associated Press)
BERLIN, Dec. 27.—Eighteen inmates of Berlin Municipal Shelter for the homeless died during the night from poisoning, and others are dying seriously. In fact, there are 200.

A number of destitute men who took refuge in the institution last night with their families, and were given shelter, died during the night. Some of them brought with them scraps of extra food to help to give a meal to the others, but found no bread and soup served out to them by the authorities. This extra delicacy consisted in many cases of spoiled, smelly meat, which had been given to the less fortunate ones.

After midnight, crowds were heard coming from the dormitories, and officials found several men dying and others in convulsions. Physicians attached to

the institution administered enemas and telephoned for help from the city hospitals but the condition of many men was hopeless and eighteen died in a short time.

The Berlin municipal shelter of Berlin is an institution which provides sleeping accommodations and meals to any destitute person who is forced to leave home. Last night, however, the service went dead for several hours last evening. Those who waited for cars to take them all over Berlin, were told to go home, and then condemning the whole works from superintendent down to matron, scolded off down the street to the nearest police station.

Last night, at least one tramp's life was the excuse given for the trouble. Last night, however, the chief authority, last evening, as far as can be seen, to serve all, was the chief of police, who took grant. As for the school, long since no one has ever tried to learn when such and such a car will be taken to the station. That just took place at 5 a.m. in the hope of finding a flock of cars going in his direction. Yesterday, it became necessary to fix up one of the drivers, who was unable to get a job because of the poor weather, and this caused a shortage of current. The cars were run every once in awhile. The streetcar service having been taken away, he had to go to his "shed" and replied that a fifteen service instead of a 12% service was being offered. As a matter of fact, the service had not been cut, but was eliminated entirely and the service delayed instead of being reduced two and a half minutes.

This morning, a car coming from Berlin, had to wait a schedule at the men operating the cars not knowing what time they were supposed to pass through. George Brink, manager of the power plant, was afterwards taken to the children's home. The infant was born yesterday, dressed, though three sets of clothing to fit him from the intense exposure. Nothing on the clothing save evidence of its parentage.

Morse Dying in Prison Cell

Declares That He Is Not a Felon and Has Paid All Debts

(Western Associated Press)

Washington, Dec. 27.—A special from Atlanta to the Washington Post last night says: "The truth about Chas. W. Morse is that he is dying; medical aid cannot save him."

"Oh, I guess I am dying," said Morse, in response to a question that was asked. "I don't mind that so much; I am not complaining, but I wish to God someone would tell the president that I am not a felon. I have paid every debt—have drained myself to pay them. I don't care if I die, but I am not a felon and I don't want to die in jail."

CAR SERVICE IS SURELY A JOKE

BUT NOT TO THOSE WHO ARE COMPELLED TO WAIT ON THE STREET CORNERS

(Western Associated Press)

TEHERAN, Dec. 27.—W. Morgan Shuster, is still here awaiting a nomination of a successor to whom he can hand over the functions of treasurer-general. The populace which holds Shuster in great esteem is much incensed against the cabinet because of his action in dismissing him. Many protests have been made to the authorities. Dispatches from Shiraz received here give further details of attack on Indian Cavalry at Kazerom. Indian troopers were escorting the British Zemindar, who was returning from the last campaign in Persia, when they arrived in the vicinity of Kazerom fifty-five miles west of Shiraz, who were fiercely attacked by the rebels. Last night, in Persian, a desperate fight ensued in which the troopers used their lances and carbines with great vigor. The rebels were driven back, but it is believed that they are still at large. The British government has been informed that they are still at large, and wounded with them, while the Indian cavalry also suffered a number of casualties, including two killed. During the fighting the consul disappeared and it is not known what has become of him.

PARENTS ABANDON FOUR-YEAR-OLD SON

Found Lying in Gutter of Orphans' Home While Mother Was Being Treated Around Zero Mark

(Western Associated Press)

WINNIPEG, Dec. 27.—Abandoned at the gate of the home of friendless children, a four-year-old boy was found lying in a gutter of an orphans' home, many times deeper than zero mark, the fate handed out to his unfeling mother at 10 p.m. yesterday.

This morning, a car coming from St. Paul, Minn., had a schedule at the men operating the cars not knowing what time they were supposed to pass through. George Brink, manager of the power plant, was afterwards taken to the children's home. The infant was born yesterday, dressed, though three sets of clothing to fit him from the intense exposure. Nothing on the clothing save evidence of its parentage.

TUBE RAILWAYS FOR TRANSFERRING MAIS

Diminutive System Is Now Being Planned for the City of London—Will Reduce Congestion

(Western Associated Press)

LONDON, Dec. 27.—A diminutive system of tube railway will be increased by a diminutive underground railroad which will be used exclusively for the transport of materials. This tube has a diameter of seven and six eighths inches in diameter, providing space for two tracks of two foot gauge. Mais vans instead of locomotives with train will be used to add to the efficiency without the necessity of shunting or shunting. It is expected that the line will relieve the congestion of the London traffic, which is increased by the large number of mail vans now in use.

FURS ARE SEIZED BY SPECIAL AGENT

(Western Associated Press)

WINNIPEG, Dec. 27.—The city police lately apprehended Albert G. Boyce, a well known club and society man of Fort Worth, Texas, and Mrs. J. B. Fort, wife of a state of insurance contractor of that city, on a charge he was held unlawfully in Canada. The woman admits her identity, but the man does not. The charge is that of elopement and desertion of husband and children. The police of Fort Worth say the man is charged with having left his wife and two sons, one of whom is a minor, in Montreal without her. She was arrested in the Royal Alexandra, and will be deported.

NEW LINER ORDERED

(Western Associated Press)

HAMBURG, Germany, Dec. 27.—Hamburg-American line has ordered a liner 10,000 tons to be built for trans-Atlantic service. She will be constructed here and will be a sister ship of the New Hebrides, the joint government having been arranged.

The New Hebrides group in the Pacific will be administrated by a mixed commission of French and British naval officers. The liner will provide accommodation for 5,000 passengers.

JAPAN'S BUDGET IS VERY HEAVY

REVENUE FOR YEAR, HOWEVER, BREAKS ALL RECORDS—MIRAKO OPENS DIET

(Western Associated Press)

TOKIO, Dec. 27.—The Emperor personally opened the Diet today. In his speech he deeply deplored the disturbance in China and prays for the safety of the country. The budget for 1912-13, which was submitted, shows the following estimates, a yen being equivalent to about fifty cents:

Revenue for year, however, breaks all records—Mirako opens Diet

(Western Associated Press)

DIVIDE NEW HEBRIDES

(Western Associated Press)

London, Dec. 27.—A dispatch to the Daily Mail from Sydney, N.S.W., says that General Sir Frank Ponsonby, commanding the forces of the division of the New Hebrides, the joint government having been arranged.

The New Hebrides group in the Pacific will be administrated by a mixed commission of French and British naval officers.

PREMIER OF CHINA IS NOW HELPLESS

COULD WIN BATTLES IF HE HAD ARMY AND MONEY BUT HAS NEITHER

(Western Associated Press)

Peking, China, Dec. 27.—Representatives members of the imperial court, according to authority source, have signed to Premier Yuan Shih Kai that their willingness to agree to an adjustment of the present situation in China realizes that there is no hope for it in detention of three or four detached sections of country, and semi-independent provinces, and that the only solution seems to be by agreeing to proposed referendum on form of government. Yuan Shih Kai fully realizes that representatives of the military authorities are closely aligned with the leaders of several balloons, which account of their great weight-carrying powers may be used as offensive weapons.

Berlin, Dec. 27.—The German War Office continues to devote infinite attention to the development of aerial craft as weapons of warfare. In addition to the exhaustive scheme of aeroplane fighter outposts shortly to be put into operation, the military authorities are closely studying the use of several balloons, which account of their great weight-carrying powers may be used as offensive weapons.

During the past few days a series of experiments have been taking place at Cologne, under the superintendence of the military authorities, in which through all sorts of manœuvres, calculated to represent nearly all the possibilities of aerial balloons, they have been subjected to every possible test as to their powers of flight, lifting capacity, etc. These trials are being conducted particularly in the case of the larger vessels, the Zeppelin, million pound balloon, one of the largest ever constructed, according to a manner most satisfactory to a man in command of the airship.

In addition to the experiments concerning the question of a fleet of huge vessels to carry large amounts of explosives, a number of smaller balloons have been submitted by Messrs. Schleicher and Wetzl for an airship of even more tremendous size.

Attempts are now under consideration.

The experimental balloon will be built of pulp, and will have a gas capacity of 3,500,000 cubic feet. It will be capable of carrying a load of 100 tons.

Sketch of Katie Altermann, on the witness stand as a witness for the prosecution in the trial of Harms and Black charged with manslaughter for the death of more than one hundred of their employees, now being held in New York. Katie Altermann, who was employed in the Triangle Waist Company, told a dramatic story of the panic and scenes during the catastrophe. Her testimony was a severe blow to the defense, for its dramatic recital left a vivid impression on the jury.

Have You Forgotten Somebody?

Do you know that Jew-
elry is appreciated as
much, New Year's as
Christmas?

Just a few New
Year Suggestions:

Pendants
Necklets
Lavaliers
Watches
Cuff Links
Cut Glass
Silverware
Fountain Pens

And lots of other nice
things, too, for New
Year, at

Grim Famine Stalks Through The Empire of the Czar

While Peasantry Are Starving the Government Hampers Efforts to Afford Relief by Departmental Red Tape—Member of the Duma Proposes That Salaries

St. Petersburg, Dec. 27.—The Russian Duma, the public and the press are very much concerned to find out, more or less suddenly, that the most talked-of event of the year, as far as agriculture is concerned, in the history of Russia's chronic harvest deficit, is not merely a failure of crops, but a downright famine. Very recently, the Russian bureaucracy has always tried to hide a real famine under the name of partial failure of the crops, and the public has generally been deceived on this point, such sufficing on the part of the populations remote from the great centres.

Governors Dismayed.

In the present case the accounts of the terrible state of affairs seem to have been given by the members of the Duma who have quite swayed all moral crevices. The premier recently made a long speech in which he assigned 120,000,000 rubles to the government for the purpose of fighting famine, for political propaganda. While the Moscow papers were allowed to collect about 30,000 rubles this morning, the local press organs of Perm, in the east, and Archangel, in the north, have been forbidden to continue the collection, and the news items already opened in their columns.

Yesterday the prime minister was

visited by a delegation representing twenty different districts in St. Petersburg for the purpose of persuading him to permit them to send relief and doctors to the distressed areas. He agreed "at once," he replies to the Messenger company, "to strict discretion."

Another young Glasowian also en-
closed his petition, which reveals how

boldly he avowed his poverty and

stated his desire to be relieved of his debts.

Red Tape Evil.

With starvation staring large numbers of the rural population in the face, of

the peasant Movtsy, South

public relief work is so badly planed that a deputy from Samara states that in the course of a week, 100,000 peasants are to be employed removing snow from one district to another. Bishop Diomynus, of Cheboksary, declares that the peasants are impelled by the clergy to remain at home for health, reciting their confessions and administering the last rites of the Orthodox church. A special appeal has been made at the Ministry of Internal Affairs, where men are being threatened with starvation than the members of their flocks, who are not supposed to participate in ordinary relief from the government.

STREET RAILWAY SERVICE
AND THE DEFICIT

Every year since it first started in operation the street railway department has shown a deficit which has resulted in the bringing forward of numerous theories as to why such is the case and offering advice as to how to put this particular utility on a paying basis. There are numerous points which have all contributed, to a greater or lesser degree, towards producing a deficit instead of a surplus. Most potent among these is the fact that the department has been heavily taxed for its power, while the superintendent cites as an instance the heavy expense incurred for maintenance.

But, be this as it may, there is no question but what with a more adequate service, a schedule which the traveling public could depend on from one minute to the next, the revenue would be materially increased without advancing the operation charges one iota. For the past two years the street railway schedule has been a veritable will-o'-the-wisp. When a citizen starts out to work of a morning he never has any assurance that he will catch a car. Sometimes he may have his choice of half a dozen all traveling in the same direction, but more often he will walk to his work. On the fares collected depends the success or failure of the utility. If the people cannot depend on the cars, the fares, and the revenue, will accordingly be reduced. It is contended that the department cannot guarantee a certain schedule owing to lack of power. This may be true, but if steps were taken to enlighten the traveling public as to what kind of service is to be maintained more people would take chances and wait for a car. It would be far better for the traveling public and more profitable for the railway department if a half-hourly service, which could be depended upon, were instituted, rather than a five-minute service which cannot be relied upon.

If more power is needed the civic officials should take steps to procure the necessary machinery, but in the meantime a little effective regulating would at least make the street railway service more popular, and with increased popularity is certain to come larger profits.

MAKING OVER
URBAN ENGLAND

The town-planning movement promises to transform urban England. It is sweeping over the country like a cleansing wave, washing away the slums and other debris of industrial centres which have been allowed to grow haphazard. The movement is fortunate in the leadership of influential men of all political parties. Earl Grey, late governor-general of Canada, announces that he will dedicate the next ten years to its promotion. Sir Henry Lever, the millionaire soap manufacturer, who has housed his thousands of employees in a beautiful garden city near Liverpool, is another enthusiastic leader of the propaganda. In a recent speech he touched on the relation of the tax system to town planning, as follows:

"Finally for ideal housing conditions a different system of rating was needed. We wanted not rating of improvements on the land. We wanted the rates to be got out of the land itself. We did not want a man to be penalized if he put up a little greenhouse or summerhouse in his garden. Such things discouraged improvements. They were irksome and operated against the beautification of a large city. If a man knew that his rates would not be affected whether he put up a decent or a shabby house, the tendency would be for him to put up a good house. And look at the effect upon the children of growing up amongst beautiful surroundings and the influence it would have in drawing them back if at some period they appeared to go wrong. With a healthier race in better homes and more decent surroundings we need not fear the competition of any nation in the world."

WAR NOT JUSTIFIED
BY ACTUAL FACTS

The central figure in Russia and Persia today is a young American by the name of Shuster. Over his retention the two countries have been precipitated into a war which has already cost considerable bloodshed and the indications now are that unless substantial reparation is forthcoming other nations may become involved. Persian troops have attacked a convoy of British troops acting as a guard for a British consul. Cossacks have murdered three Americans at Tabriz and regular Russian troops have ruthlessly cut down four Frenchmen in the city of Teheran. What their respective nations will do has not yet been decided. Looking at it from one point of view one can see several nations embroiled in combat. From another a number of homes desolated through the death of loved ones, their only solace being a money consideration. Whatever the result may be the incidents show conclusively that these nations at least have not yet passed the barbarian stage. The dismissal of one official does not in any way justify the wanton murder of disinterested individuals. The question could easily enough have been submitted amicably. If all Russia desired was the dismissal of the American, who they claimed was encroaching on privileged territory, it could have been brought about without bloodshed. If, as the reformed party in Persia claims, Russia interfered with a view towards eliminating Persia another phase of the question is raised.

The proper procedure undoubtedly would have been to submit the entire question to The Hague tribunal, but in submitting this proposition it must be remembered that the czar was the first to propose the formation of the tribunal and was also the first to break the regulations laid down.

In any event Shuster has accomplished his work. He has brought Persia's finances out of a chaotic state and has placed it on a firm foundation.

THIS IS MY BIRTHDAY

December 27,

1851—Hubers B. Taney of Maryland, became attorney-general of the United States.
1834—Charles Lamb, the famous humorist and poet, died. Born in London in 1775.
1862—Gen. Sherman's army landed near Crookas Bayou in Georgia.
1870—First meeting of the Ontario legislature.
1871—the new Chamber of Commerce was opened in Philadelphia.
1884—The simple statue in Philadelphia destroyed by fire.
1905—Human carcass installed as a specimen in a museum.
1908—President Roosevelt invited to Canada and Mexico to join in the movement for the conservation of resources.

HIGHEST TOWER
IN THE WORLDWIRELESS TELEGRAPH POLE RISES
THE AIR DISTANCE OF
600 FEET

Berlin, Dec. 27.—A wireless telephone station, close to Berlin, has been declared to be the highest in the world, with the exception of the Eiffel Tower in Paris. The tower, which rises 1,000 feet, is built in order to connect the range of the wireless station, which is already able to communicate directly with New York, it was decided to add with Berlin, a distance of 300 miles. The engineering feat has now been accomplished, and in average weather the summit of the tower is often lost in the clouds.

The tower is built at architectural beauty in the tower's construction, and it is anything but a feature of the district appearing like a huge mountain rising out of the earth's surface towards the sky, from the uppermost extremity of which a net of wire-work stretches outwards the ground.

From a technical point of view, however, the Naen Tower is probably original. It was founded in a single stroke, and the entire tower rests the entire weight of over 600 feet of ironwork. Upon a structure of such immense height the power of the wind is naturally very considerable.

Returning home she left her husband, leaving her husband in bed. Murderer and daughter launched in a restaurant, and after getting a revolver purchased a revolver and a quantity of cartridges.

Returning home she left her husband, leaving him in bed. Murderer and daughter started upstairs. The unfortunate man was shot dead.

The second victim, Miss Camille Pascal, 63 years of age, was also shot.

She had been a widow for 20 years.

Embroidered little girl before giving herself up to the police. The experts have been asked to report on the woman's mental condition.

THE WEATHER.

Winnipeg, Dec. 27.—Very cold weather has continued throughout the prairie provinces especially in Saskatchewan and Manitoba.

Forecast—Monday—Fine and dry.

Alberta—Northeast winds continued low temperature with light snowfall.

BUTTERFLY.

Ottawa, Dec. 27.—"The problems of British Columbia are more serious than we have heretofore realized," said Mr. W. J. Akins, associate secretary of the Melodicty department of temperature and moral decay, in his annual address before the Society of Temperance.

Speaking of temperance, Mr. Akins remarked that he was informed that the Society of Temperance, which disposed of 1,000 cases of beer, had been forced to threaten to take her own life.

Mr. Akins, who is president of the society, said that the members of the society had been instrumental in saving upwards of 1,000 cases of beer.

He said that the society had been instrumental in saving upwards of 1,000 cases of beer.

The same could be said of the social evils.

It was hard for the social evils to get rid of the social evils in their business as they would be moved out of one city to another, and, in fact, it was believed that a regular circuit of the coast cities and middle cities cities was operated in this way.

A WINNIPEG WEDDING.

(Western Associated Press.)

Winnipeg, Dec. 27.—A wedding of interest in Winnipeg, Moose Jaw, Nelson and Burlington, Ont., took place on Saturday evening, Dec. 26, when Miss Clara G. Springer, daughter of David Springer of Nelson, and granddaughter of David G. Ghent, of Burlington, Ont., was married to Guy H. Broadfoot of Winnipeg.

The newly married couple will spend their honeymoon at Port Arthur, but will live in Moose Jaw.

CARELESS WORKMEN TO BLAME.

(Western Associated Press.)

Winnipeg, Dec. 27.—Fire Commissioner Lethbridge, who has been investigating the cause of the fire in the Great White Way, found that defective chimneys, the fault of knowingly careless workmen or contractors. His contention in this case was supported by city engineer Inspector Hodges, who said that a new house on Grosvenor street, which had almost burned to the ground last week, had no masonry in the layers of bricks and against the woodwork.

RETURNS FROM TRIP WEST.

(Western Associated Press.)

Winnipeg, Dec. 27.—Fire Commissioner G. M. Bosworth of the C. P. R. arrived from a western trip tonight, but had no announcement to make. He took several trips on the coast streamers, and on the Great White Way, which are bringing crude petroleum which marks success as fuel, and he said the new west coast steamers of the company will be ready for the opening of the season.

He is accompanied by Mr. Bosworth and Captain and Mrs. Bredt, all of Vancouver.

In the Massachusetts election last month the Socialists polled less than 15,000 votes, as against a total of nearly 40,000 votes cast for their party candidates in 1908.

THIS DATE IN HISTORY

December 27,

"THIS IS MY 84TH BIRTHDAY."

Duke of Norfolk.

The Duke of Norfolk, the premier peer of Great Britain, was born in Carlton Terrace, London, December 27, 1874, and succeeded to the dukedom of Norfolk in 1901. His family is the oldest Saxon nobility in England and were anciently the Hereward family.

As earl marshal of the Household Cavalry, he performed the processions of state on occasions of royal coronations and the like ceremonies.

Although immensely wealthy, the Duke is one of the hardest worked men in England.

He has served faithfully as county controller of London, as mayor of the county of Surrey, and as lord lieutenant of the county of Surrey.

His Grace is a zealous Roman Catholic, takes great interest in all matters relating to his church.

In 1868 he was appointed to the Victoria Cross, and again in 1902 to attend the jubilee celebration of Pope Leo XIII.

Joe Bayley and Billy Lauder Matched To Box Fifteen Rounds at Lyceum, Jan. 3

Edmonton Athletic Club Succeeds in Bringing Together these Two First-Class Lightweights for a Match for Western Lightweight Championship

The Edmonton Athletic Club yesterday arranged for Joe Bayley and Billy Lauder to meet in a match for their two lightweights, which was arranged for Wednesday, January 3rd, at the Lyceum Theatre. The bout is to be for the Western Canadian championship, which will be the lightweight championship of western Canada. Lauder's record is too well known to need repeating. He has won the last four contests in his career, and he has been going on recently for a match for Lauder with Billy Allen for the lightweight championship.

Joe Bayley is a man worthy of Lauder's best and will extend the Southern Ontario boxer's chances by being confident of gaining a victory. Bayley is a very ambitious young gent. He has not had a loss in his career, and is not content to be with the crowd, but is anxious to get to the top of the heap. Since he has not had a loss, he will go to Frisco and hook up with the best in California.

Both Bayley and Lauder are clean fighters, and when they're up to their best, it's a square deal.

JOE BAYLEY, the British Columbia champion, who will meet Billy Lauder at the Lyceum Theatre in a fifteen round go for Western Canada lightweight championship.

BASEBALL NOTES.

New York Giants won the Cuban series played in Havana, capturing 9 out of the 12 games played.

Jimmy Hartman, the old Cincinnati club manager, has agreed to manage the Des Moines team next season.

The new owners of the Toledo team have engaged Harry C. Smith to train in Lexington, Ky., next spring.

Harry Pattie, the former Brooklyn club manager, has been engaged to coach the Brown University baseball squad.

Marty Hogan, for several years manager of Tri-State league teams, has quit the game and will go into business in

Youngstown, O.

James Fred Gaffney, the new owner of the Boston Nationals, says the South End team still has 25 to 30 percent, according to Col. Gaffney, commander, at a smoker last evening when this regiment and the 1910 Dragoons were guests. The 1910 regiment was acclaimed by the regimental commanding officer of the host to the rank of commanding colonel vice Col. Edwards resigned. A Jolly dinner was spent with speeches, toasts, music and singing. There were present some 400 guests.

By the time the dressing room opens the military will have increased considerably. The Cuban team will be welcomed to the host's home by the rank of commanding colonel vice Col. Edwards resigned.

A Jolly dinner was spent with speeches, toasts, music and singing. There were present some 400 guests.

It is reported that Hugh Duffy has a two-year contract with the New York Yankees team, which calls for \$15,000. That's class AA, salary all right.

It is also reported that Frank Chance is to be the game next season, holding down an effort is made to combine the Ohio and Pennsylvania and Central clubs, leaving the Indians considerably financially difficult last season.

After many days' work on the new American league park in New York has been started. The contract calls for completion April 1st. The Newark team has signed first baseman Harry Swanson. Two years ago Swanson was fired out by Pittsburgh, and last season he managed the Mobile Southern League team.

CURLING

The draws for the district trophy primaries will be played at the New West Club. At 8 p.m. the Colonels and Grantees will play on Seana ice, and at 8 p.m., the names will play on the other ice. The club will meet tomorrow night at the rink to decide the skips to represent the district.

GRANITE RESULTS.

Following are the draws at the Granite rink tonight:

Col. vs. Scott,

Fisher vs. Lancaster,

Macmillan vs. Venner,

Capital Draws.

Following are the draws of the Capital rink tonight:

Col. vs. Archibald,

A. G. Gillespie vs. Kincaid,

Turnbull vs. Darling,

L. H. Macmillan vs. Bob,

Mould vs. Young,

Massie vs. Edwards.

Ottawa, Dec. 27.—The first of the newly organized Ottawa section of the Inter-Provincial Union will be played at the Elbow Room this evening. The Renfrew club today consented to the transfer of the date and place.

The amateurs are out to make the professionals pay for monopolizing the attention in the city, and have appointed a delegation to go to Rideau Hall tomorrow morning to speak to the King about the highnesses, and Princess Patricia.

It was Brother Jack Jeffries, who answered the query with the statement: "An amateur is every man that he has been sent against."

"He's won over them out west," said Tom Jones, following up Jeffries.

"Wolfgang has knocked out the last five men he met, and in each case his name has never been scored for or the count."

"George Morris has never been off the board since he has been scored for or the count."

"Hokan, Burns and Laskrav" had never seen stars until Wolfgang played, and the last Los Angeles game, and was thought that nothing short of a copper hammer could stop the boy from winning.

"It's a good thing to have him unmercifully that the referee had to stop the thing to save George's neck."

"Lokan, Burns and Laskrav" had never seen stars until Wolfgang played, and the last Los Angeles game, and was thought that nothing short of a copper hammer could stop the boy from winning.

"It's a good thing to have him unmercifully that the referee had to stop the thing to save George's neck."

"Five men he has never taken the count were cratered and ready for the count when he had them finished with them. These are a few of the things that the present lightweight champion has done."

Ottawa, Dec. 26.—After two years' strenuous efforts to bring the pair together, Billy Allen and Pal Moore have at last been matched for ten rounds at the Renfrew New Year's Day bout.

The promoters have arranged with the management of the theatre to can-

cel all other shows.

Allen's fans are during the holiday season.

Moore's fans are during the holiday season.

Both will be in the Lyceum theatre to see the bout.

Montreal, Dec. 26.—"There is absolutely no foundation for truth in the report, from Toronto, that the Montreal Amateur Athletic Association has made drastic changes in its constitution and union," said John Davidson, the managing director of the M. A. A., when asked for comment concerning the story.

"The decision reached at our annual meeting remains unchanged, and no such action as is claimed to our officers would have been taken unless some amendment had been made to this decision. There is left the slight possibility that we will make a change in our attitude in the matter. I was in Toronto attending the football games, and when I returned, but talked to no one."

Montreal, Dec. 26.—Everything is in readiness for the opening contests tomorrow night of what promises to be the most notable series of professional boxing contests ever presented in the leading winter pastime in Canada. The National Boxing Association has planned an unusually long schedule for the season, and the leading amateur teams appear to be well matched. Some keen competitions are in prospect.

FUSILIERS' SMOKER PROVES A SUCCESS

Montreal, Dec. 26.—"There is absolutely no foundation for truth in the report, from Toronto, that the Montreal Amateur Athletic Association has made drastic changes in its constitution and union," said John Davidson, the managing director of the M. A. A., when asked for comment concerning the story.

"The decision reached at our annual meeting remains unchanged, and no such action as is claimed to our officers would have been taken unless some amendment had been made to this decision. There is left the slight possibility that we will make a change in our attitude in the matter. I was in Toronto attending the football games, and when I returned, but talked to no one."

**NEW MORAL REFORM
MOVEMENT FORMED**

Philadelphia, Ind., Dec. 27.—A new movement to aid the uplift of the masses and to combat the abuses from which they suffer has just been formed. It was formally launched here yesterday at the initial convention of the Indiana State Civic Union. The purpose of the new organization, as set forth by its promoters, is to advocate civic and moral reform by means of education, legislation and law enforcement. The first great issue which it purports to take up is the Sabbath observance, social purity, temperance, sanitation, industrial equity and international peace.

Philadelphia Democrats are planning for a big Jackson Day banquet next Saturday.

New Mexico hopes to have the official record of the returns of the recent election completed in time to inaugurate William C. McDonald as the State governor early in January.

**ANOTHER ATTACK ON
AINZARA IMMINENT**

Recent Sortie of 10,000 Arabs Caused
Italians Much Discomfort.

London, Dec. 27.—The Malta correspondent of the Chronicle sends a letter received from Tripoli describing the recent surprise attack by 16,000 Arabs, with artillery, on Ainzara. The Italians were able to repulse the enemy only after six hours of hard fighting, during which they repeatedly requested reinforce-

Other reports from Tripoli say another determined attack on Ainzara is imminent. No serious fighting has taken place during Christmas.

Louisiana's next governor will be selected at the Democratic primaries next month. The contest is expected to be a spirited one between John T. McKeithan, candidate of the "regular organization," and Judge Luther E. Hall, candidate of the good government league Democrats.

**PRISONER AND
GUARD KILLED**

BOTH FALL FROM A FAST MOVING
EXPRESS DURING FIERCE
STRUGGLE.

Baris, Dec. 27.—One of the most thrilling adventures in the annals of police struggle with prisoners has ended in the capture of a gendarme and his prisoner after an exciting scene in a fast express. A gendarme named Lalouche, from Paris, had been ordered to escort a prisoner named Lalanne to Bordeaux. The gendarme was to be tried in Bordeaux.

The gendarme Lalouche and a colleague had got into the Bordeaux express with their prisoner about 7:30 in the morning. At about 4:50 in the afternoon, after passing the station of Saumur, the prisoners asked to have a glass of cold room. The gendarme Lalouche accompanied him, and put his foot to the door as to prevent it from closing entirely; but as the train was moving at the rate of fifty-five miles an hour, the carriage shook violently, and the gendarme's foot slipped from the door, and bolted it on the inside. He then smashed the window of the toilet room and started to climb out, but the gendarme, at last, risked his life, ran along the carriage floor at the end, and getting on the footboard, caught hold of his prisoner just as he got out of the window.

The two men had a fierce struggle on the footboard, while the express was still flying along at full speed, and finally the prisoner threw himself off the train, dragging the gendarme after him. The gendarme was instantly killed, and the prisoner was severely injured, but he managed to get into a nearby car. The alarm had meanwhile been rung, and the train came to a stop. The line was searched, and the body of the gendarme was found on the permanent way. The prisoner was also found as he was trying to move across a field with his clothes in rags and his hands and face stained with blood. He was carried cătured, as he was injured so severely to stand well on his legs. He was taken under guard to an ambulance station, and thence to a hospital, where he died during the night.

**ANOTHER RAILWAY
FOR WESTERN CANADA**

New York, Dec. 27.—Having absorbed the Iowa Central with the approval of the stock-holders of both railroads, the Minneapolis and St. Louis is going ahead with its development plan which was announced by Newman Erd, its president, include not only one but two extensions of the Hawley road, which are being planned to the Canadian Pacific. It is proposed to build one direct line between Minneapolis and Winnipeg. The other connection is to be made between the Canadian Northern and the Grand Trunk Pacific in the direction of Edmonton in the western part of Canada.

**UNIFORM FENDERS FOR
STREET CARS**

Ottawa, Dec. 27.—That the Dominion railway commission is taking a look into the question of fender protection on street cars and will issue circulars requiring every electric road under the board's jurisdiction to show what they have in this regard, was the statement made by Assistant Commissioner D'Arcy Scott. An order will probably follow making uniform some system of fender protection.

COMMITTED FOR TRIAL

Ruthenian is Charged With Plotting to Murder Servant at St. Elmo Hotel.

HARRY OSKA, a Ruthenian, was committed to the superior court for trial yesterday afternoon by Magistrate Cowan on a charge of attempted murder on a servant. He had been arrested on Saturday evening after he spoke the Ruthenian language, that he stated. Mr. Hinko, but he was so excited at the time that he could remember what he used to say to the woman, that he thought it was a lead pencil. The case will probably be tried in the higher court early in February. Crown Prosecutor Gosselton conducted the case for the crown. Attorney Walbridge appeared for Oska.

LARGE NUMBER ARE INTERESTED

IN NIGHT CLASSES AT WHICH MECHANICAL DRAWING WILL BE TAUGHT.

There are prospects of a good attendance at the night classes in mechanical drawing which will be instituted next week in connection with the night school that has been carried on in Queens Avenue school since November 20th. Applications from students in pumps in the schools already have been received by Superintendent J. McCaig, and a lively interest is being shown in the new departure by those who hope to take advantage of it.

Arrangements have been made whereby T. E. Hughes, who has charge of mechanical drawing in connection with the day school works will conduct his classes in the school. The hall in Queens Avenue school, however, will be held on Tuesday and Thursday nights, thus alternating with the regular night classes conducted by Mr. Brauer. No special arrangements require the signature or the number of classes to be held each week, have been made; how ever.

TRAINS ARE ALL BEHIND TIME

One of the effects of the cold snap that is now seeping the Prairie provinces is to set nearly every one of the passenger trains running into the city behind its regular schedule. This morning the C.P.R. train from Winnipeg to Edmonton, which usually leaves 6:30 a.m. was nearly four hours late. The G.T.P.R. train due in the city at 9:15 p.m. came about midnight last night. The temperature on the east end of the temperature dropped so rapidly that it was impossible to keep the trains running on time.

In almost every case of this kind trouble is experienced with some part of the engine or with the steam heating in the coaches which means several delays along the road, amounting to a number of hours on such a long run as that between Winnipeg and Edmonton.
